## URL SHORTENING MADE HASSLE FREE

### **Abstract.**

Our project aimed to create a simple, ad-free URL shortening service, prioritizing user privacy. We believe in providing an ad-free and non-invasive experience, as we understand that nobody enjoys advertisements or giving up their data to an unknown third party. The result is a site that has a minimalist design, focusing on one task: URL shortening, without requesting permissions or invading user privacy.

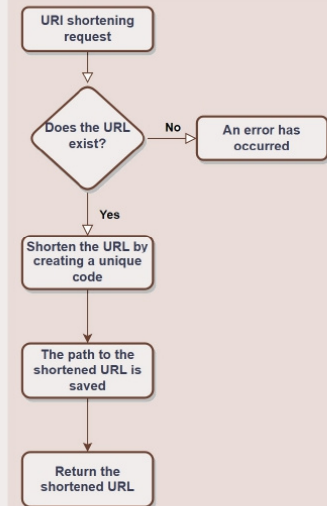

**Key words:** *URL shortening, ad free, open source, simple, privacy.*
