PURSUIT – LEISURE SPORT ACTIVITY APP

Abstract.

The idea of our project is to bring consumers an easy and accessible way to find activities and experience a more active lifestyle. Our team consists of greatly skilled developers, cyber security and senior customer success experts. We view this concept as a fantastic opportunity since the market for this product is not highly competitive. The app we are developing acts as a middle man between customers and businesses or activity organisers. Utilizing a responsive map in our system, users are able to see active offers and sign up to various activities. In the future, we plan to arrange partnerships with different leisure organisers and social clubs.

Key words: *IS for active lifestyle, leisure app, sport activity app, responsive map.*

POSTERS

We have lots of different suggestions
on how to spend Your leisure time!

We are a up-and-coming middle-man
between customers and businesses

Our main goal is to make Your experience as
best as it would meet all the necessary
requirements
